BUSINESS TIPS

HELP YOUR SALON

Vouchers are great business tools to drive your salon revenue and ensure your salon's cash flow. Vouchers will bring you sales when the salon is closed.

- Spread the word and let all your clients know - maybe even ignite some local PR (local press, local FB groups).
- You can create different personalized vouchers. Try out different ones to see which work best for you over time and measure their success.
- If you integrate high rebates in your offers, you should calculate your long-term salon sales.
- Send your clients a beautiful, personalized PDF voucher - contact your Sales Representative for a template.

Important: If you integrate high rebates in your offers, you should calculate your long-term salon sales. Avoid selling vouchers for full services as then you will not generate incremental revenue at the time of re-opening. Make sure to track the vouchers sold (to whom) and redeemed - Contact your Sales Representative for a free template if interested.
